Personal space, flexibility and style

The Ambiance line provides personal space with style and comfort. This concept of personal space ensures that all seating positions are comfortably used, providing ease of occupancy for your customers and more bowlers per lane for you. The use of individual pieces offers maximum flexibility and versatility to meet the needs and space requirements of your center. This line has been designed with style for centers catering to a higher end experience and boutique sections of large centers. It is also a perfect complement for concourses and lounges.

ambiance

Chairs

UNIQUE STYLE

The key component of the Ambiance line is the unique chair. This chair was designed specifically for bowling environments. It utilizes internal steel construction for robustness and ballistic nylon footings for floor protection. Its height and sitting angle provide the desired comfort along with ease of getting up and down to bowl. This concept is unmatched in the industry.

Tables

MODERN FLAIR

The concourse, coffee and end tables are designed with flair to complete the center look. Tables are easy to clean and provide storage for personal items. Available in four unique top and shelf color combinations. Tables can be bolted down or left free-standing.

Stools

AESTHETICALLY APPEALING

These custom, free-standing bar stools are designed to perfectly complement the other Ambiance products with color coordinated tops, posts, and leg accents.

Privacy Screen

INTIMATE SETTINGS

Create intimacy per lane pair to further enhance the ambiance of your center. Designed at the perfect height to provide division and privacy while at the same time, low enough to allow conversation between lane pairs.

Engaging Environments

To help you create the environment you desire, we have worked with professional color designers to develop four unique coordinated color schemes. Choose one of these settings or design your own.

Metro Lounge

Versatile, trend-setting colors. Fits well in multiple types of environments.

Chairs and Stools shown in Orange Kist and Granny Smith. Table Collection shown in Wallaby.

Midtown Cafè

Light and soft colors suited for lighter and brighter environments.

Chairs and Stools shown in Sand and Orange Kist. Table Collection shown in Organic Green.

Corner Bistro

Rich and warm colors, suited for both light and dark environments.

Chairs and Stools shown in Saffron and Eggplant. Table Collection shown in Grenadine.

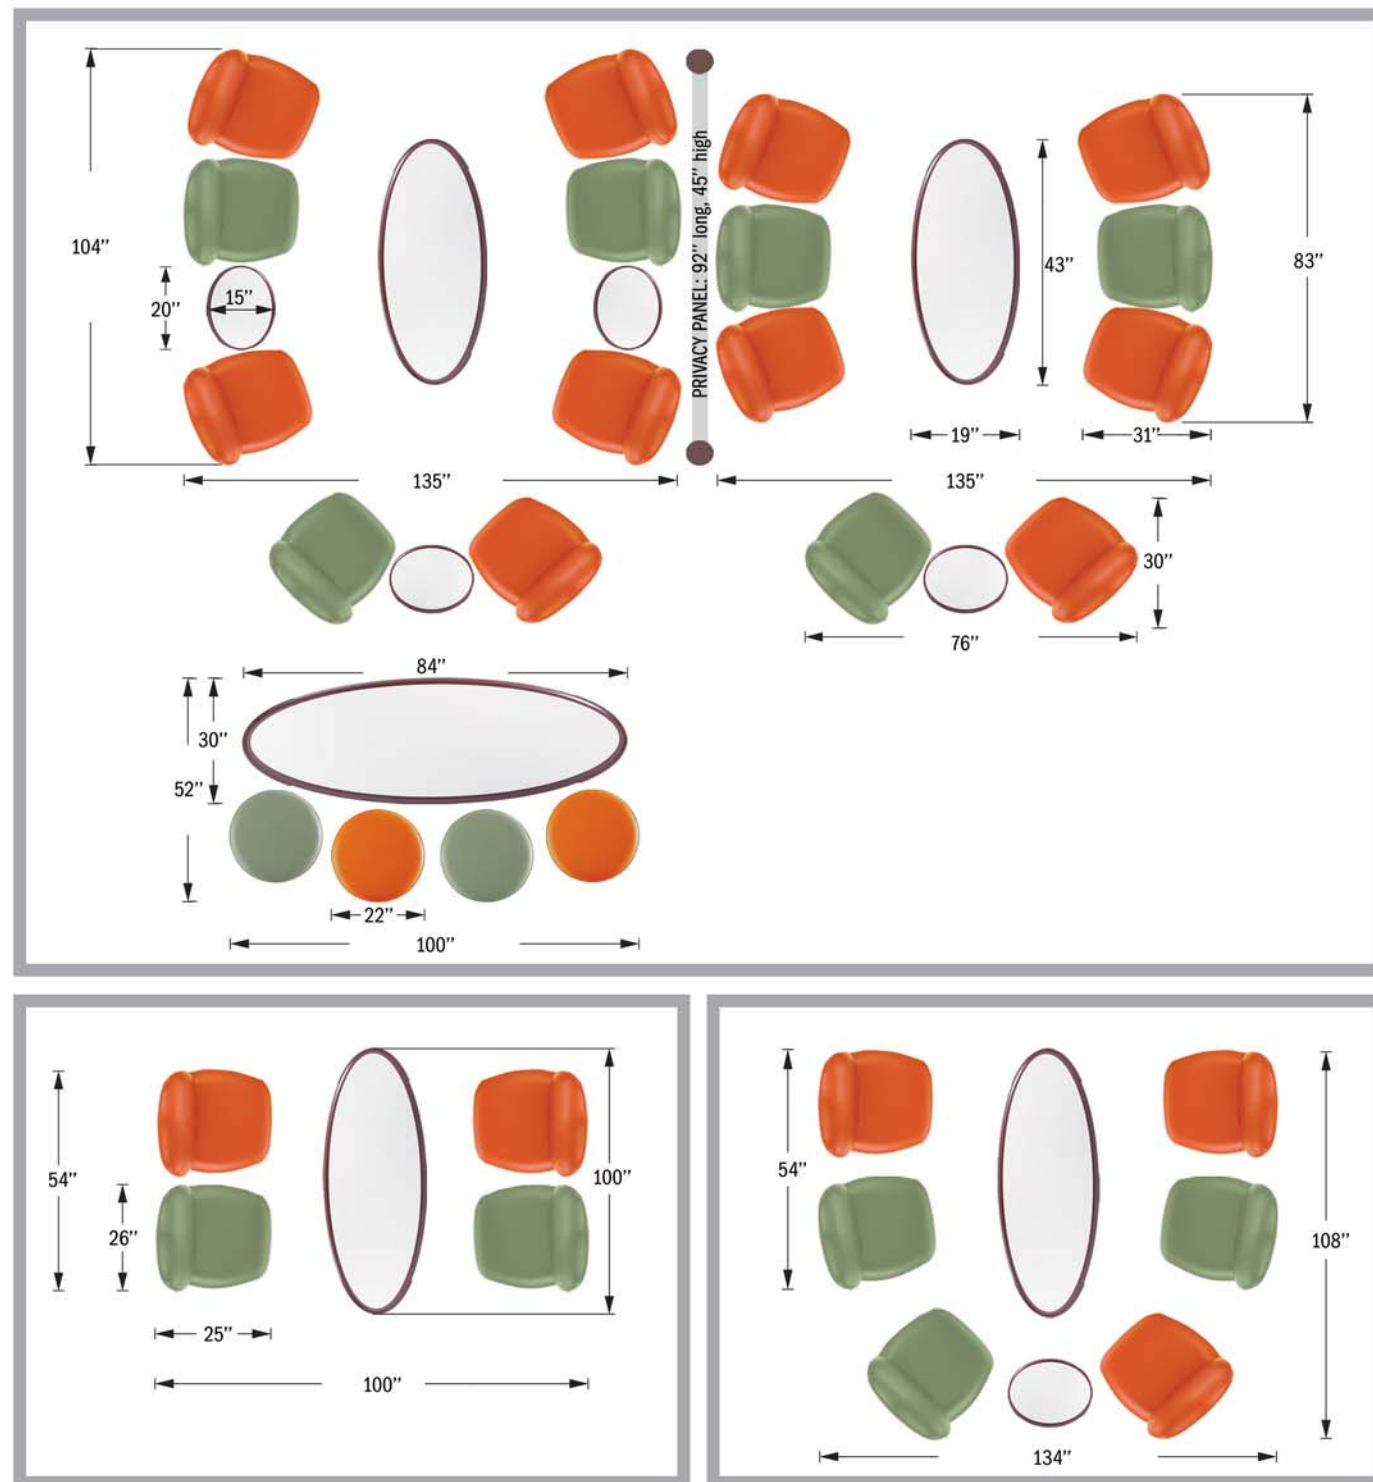

Urban Club

Rich colors, suited for darker or dramatically lit environments.

Chairs and Stools shown in Amethyst. Table Collection shown in Dark Chocolate.

Layout

Technical Features

The Ambiance line can be configured in many ways. To further enhance the flexibility, the seats can be bolted together, bolted to the floor, or left free standing.

BOLT TOGETHER - PIVOT

Bolt chairs together so they move as a single unit. The pivot allows you to select the angle of your choice.

BOLT TOGETHER - FIXED

Fix the chairs together in a straight line so that they move as a single unit.

FREE STANDING

Leave seats independent of each other for the flexibility of changing your seating layout.

BOLT TO FLOOR

Secure your layout to the floor using bolt down brackets, which are cleverly hidden from view under the chair feet.

ZIP OFF COVERS

The seat back and base unbolt from each other so each of the covers can be removed and individually replaced.
