

**SIMPLE TO USE.
CLEANS QUICKLY.
OILS CONSISTENTLY.
COSTS HALF THE PRICE.**

EXPRESS

The Express Lane Machine is simple to use, designed specifically for smaller centers and extremely affordable.

Half the price of other machines, in fact. Truth is, you just don't need all the bells and whistles those other machines tack on. And you certainly don't need the added expense. All you really need is a machine that cleans, oils and buffs consistently in a single pass.

The Express gives you easy access to all liquids and offers you a foolproof foam selection system. It has optical sensors for detecting the end of the lane and the foul line.

Plus, it comes with a floating vacuum head to fit the contours of your lanes. The Express Lane Machine from QubicaAMF. Quick, reliable and so efficient it can even polish your bottom line.

THE QubicaAMF EXPRESS LANE MACHINE

Simple and easy, the Express is designed to be extremely reliable for the needs of smaller centers but works well in any size center.

The Express combination machine cleans, oils, and buffs in a single pass.

Access to all liquids is easy with cleaner and waste containers right on top (this means no hoods to open).

Using QubicaAMF's foam selection system couldn't be simpler. First select the combination of color coded foams that meet the desired oil pattern across the lane, enter the oiling and buffing distances on the digital key pad, and then let it run.

The Express Machine features optical sensors for detecting end of lane and foul line making it more reliable than mechanical switches.
